All Principals,
Government Degree Colleges, J&K State.

No. DC/HE/09/Pur-Book/16 Dated: 22-12-2016
Subject:- Purchase of book "Ladakh"- Knowing the Unknown.

1. Ms. Sangeeta Gupta, IRS, Principal Commissioner of Income Tax, J&K, Jammu has authored a book of photographs with unique insight into Ladakh titled **Ladakh-Knowing the Unknown** (Copy of front page enclosed).
2. She has requested that copies of the book may be placed in various colleges of the State (copy enclosed).
3. All Principals are requested to purchase book at 30% discount out of library grants and place a copy of this book in college library for reference of students.

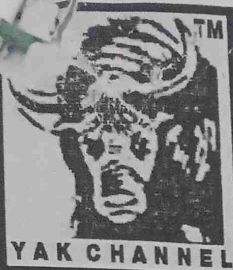

Director Colleges,
Higher Education Department

Copy to the:-

1. Ms. Sangeeta Gupta, IRS, Principal Commissioner of Income Tax, J&K, Jammu, 1st Floor, Aayakar Bhavan, Rail Head Complex, Dr. Ambedkar Chowk, Jammu-180012 for kind information.

Engaged with you.

Cengage Learning believes that engagement is the foundation of learning...engagement is at our core and our focus is on engaging with learners, both in the classroom and beyond, to ensure the most effective product design, learning solutions and personalized services - all to help people learn. We understand that an engaged learner is a successful one and we are leading the transition to digital with a unique faculty AND student perspective to transform learning through engagement. Our name itself reinforces this core commitment - "engage" is at the "center" of all we do.

Author: I. L. Finar
ISBN: 9788177585414
10 Digit ISBN:
817758541X
Price: Rs. 959.00
Pages: 956
Imprint: Pearson
Education
Binding: Paperback
Status: Available

Ratings: ★★★★★

Organic Chemistry is a well-established two-volume textbook for students studying chemistry at degree level.

Volume 2 carries the material of Volume 1: Fundamental Principles to a more advanced level. The author provides a comprehensive introduction to the relationship between physical properties and chemical structures, and then proceeds to a detailed account of stereochemistry. The later chapters are devoted to the most typical compounds of natural products and the problems involved. A selected number of reading references are given at the end of each chapter.

Table of Content

1. Physical properties and chemical constitution
2. Optical isomerism
3. Nucleophilic substitution at a saturated carbon atom, asymmetric synthesis
4. Geometrical isomerism, stereochemistry of alicyclic compounds
5. Stereochemistry of biphenyl compounds
6. Stereochemistry of some elements other than carbon
7. Carbohydrates
8. Terpenoids
9. Carotenoids
10. Polycyclic aromatic hydrocarbons
11. Steroids
12. Heterocyclic compounds containing two or more hetero-atoms
13. Amino-acids and proteins
14. Alkaloids
15. Anthocyanins
16. Purines and nucleic acids
17. Vitamins
18. Chemotherapy
19. Haemoglobin, chlorophyll and phthalocyanines

AN INTRODUCTION TO CHEMICAL THERMODYNAMICS

R.P. Rastogi & R.R. Misra

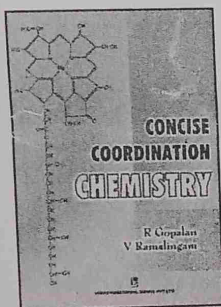

₹450.00
6th Edition
ISBN : 9780706999358

CONTENTS

Fundamentals Concepts • The First Law of Thermodynamics • Thermochemistry • The Second Law of Thermodynamics • Free Energy Functions • Statistical Thermodynamics • System of Variable Composition • Chemical Equilibria • The Phase Rule • Non-Equilibrium States: Linear Thermodynamics of Irreversible Processes

CONCISE COORDINATION CHEMISTRY

R. Gopalan & V. Ramalingam

₹495.00
1st Edition
ISBN : 9788125909347

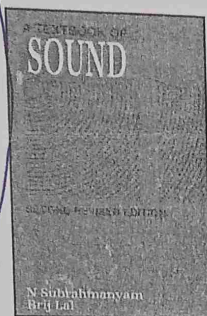

CONTENTS

Introduction • Nomenclature of Metal Complexes • Theories of Coordination Compounds I • Theories of Coordination Compounds II • Spectral and Magnetic Characteristics of Metal Complexes • Stability of Coordination Compounds • Chelates • Isomerism of Metal Complexes Reactions of Metal Complexes • Reactions of Metal Complexes I • Reactions of Metal Complexes II • Organometallic Compounds • Metal Carbonyls and Related Compounds • Industrial Applications of Organometallic Compounds • Biological Coordination Compounds • Applications of Coordination Compound • Preparation of Coordination Compounds • Solved Spectral Problems in Coordination Chemistry

PHYSICS

A TEXTBOOK OF SOUND

N. Subrahmanyam & Brij Lal

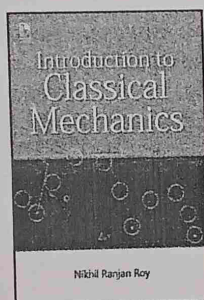

₹325.00
2nd Edition
ISBN : 9780706998177

CONTENTS

Harmonic Oscillators • Lissajou's Figures • Free, Forced and Resonant Vibrations • Forced Vibrations • Velocity of Sound • Stationary Waves, Interference and Beats • Vibrations in Strings and Air Columns • Doppler Effect • Reflection, Refraction and Diffraction • Practical Applications •

INTRODUCTION TO CLASSICAL MECHANICS

Nikhil Ranjan Roy

New

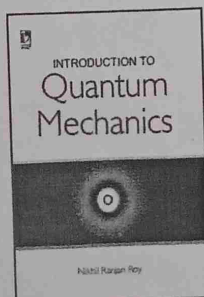

₹215.00
1st Edition
ISBN : 9789325994027

CONTENTS

Introduction • Fundamental Concepts and Definitions • Variational Principle and Lagrangian Formulation of Mechanics • Hamiltonian Formulation of Mechanics • Canonical Transformation Theory • Hamilton-Jacobi Theory • Conservation Laws in Classical Mechanics • Two-Body Central Force Problem: Kepler's Laws Of Planetary Motion • Scattering In Central Force Field • Kinematics and Dynamics of The Motion of a Rigid Body • Moving Frames of Reference: Rotating Frame, Centrifugal Force and Coriolis Force • Small Oscillations

INTRODUCTION TO QUANTUM MECHANICS

Nikhil Ranjan Roy

New

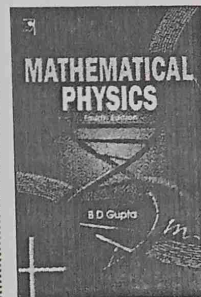

₹215.00
1st Edition
ISBN : 9789325990197

CONTENTS

Origin of Quantum Physics • Mathematical Preliminaries • Postulational Foundation of Quantum • Wave Mechanics of Schrodinger • One-Dimensional Problems • Linear Harmonic Oscillator Problems • Three-dimensional Problems: Spherically Symmetric Potentials • Angular Momentum in Quantum Mechanics • Dirac's Formulation of Quantum Mechanics: Dirac's Bra Ket Notation

MATHEMATICAL PHYSICS

B.D. Gupta

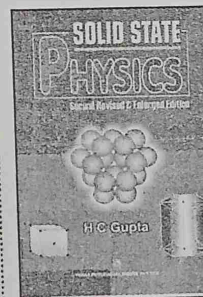

₹645.00
4th Edition
ISBN : 9788125930969

CONTENTS

Vectors • Matrices • Tensors • Group Theory • Complex Variables • Beta, Gamma and Error Functions • Differential Equations • Harmonics (With Special Functions) • Fourier's Series, Integrals and Transforms • The Laplace Transforms • Hankel Transforms • Diffusion, Wave and Laplace's Equations • Maxwell's Electromagnetic Field Equations • Special Theory of Relativity • Statistical Probability

SOLID STATE PHYSICS

H.C. Gupta

₹465.00
2nd Edition
ISBN : 9788125910114

CONTENTS

Crystal Structure • Crystal Diffraction • Crystal Bonding • Crystal Elasticity • Lattice Dynamics • Thermal Properties • Free Electron Theory of Metals • Band Theory of Solids • The Fermi Surface • Semiconductors • Semiconducting Devices • Dielectric Properties • Optical Properties • Magnetic Properties • Superconductivity Properties

WAVES AND OSCILLATIONS

N. Subrahmanyam & Brij Lal

CONTENTS

Harmonic Oscillators • Lissajou's Figures • Free, Forced and Resonant Vibrations • Wave Motion • Velocity of Sound • Stationary Waves, Interference and Beats • Vibrations in Strings and Air Columns • Reflection, Refraction

Ratings: ★★★★★

S.No. 14

The sixth edition of the study guide represents the result of the authors commitment to offer an even more effective teaching/learning tool in conjunction with their book titled Organic Chemistry. Much of the material has been rewritten and reorganized to provide a more accessible presentation, clear explanation and a greater emphasis on fundamentals.

Table of Content

1. Acknowledgements.
2. To the Students.
3. Note.
4. Structure and Properties.
5. Methane: Energy of Activation, Transition State.
6. Alkanes: Free-Radical Substitution.
7. Alkyl Halides: Nucleophilic Aliphatic Substitution.
8. Alcohols and Ethers.
9. Role of the Solvent: Secondary Bonding.
10. Alkenes I—Structure and Preparation: Elimination.
11. Alkenes II—Reactions of the Carbon-Carbon Double Bond: Electrophilic and Free-Radical Addition.
12. Stereochemistry II—Stereoselective and Stereospecific Reactions.
13. Conjugation and Resonance: Dienes.
14. Alkynes.
15. Cyclic Aliphatic Compounds.
16. Aromaticity: Benzene.
17. Electrophilic Aromatic Substitution.
18. Aromatic- Aliphatic Compounds: Arenes and Their Derivatives.
19. Spectroscopy and Structure.
20. Aldehydes and Ketones: Nucleophilic Addition.
21. Carboxylic Acids.
22. Functional Derivatives of Carboxylic Acids: Nucleophilic Acyl Substitution.
23. Carbanions I: Aldol and Iaisen Condensations.
24. Amines I: Preparation and Physical Properties.
25. Amines II: Reactions.
26. Phenols.
27. Carbanions II: Malonic Ester and Acetoacetic Ester Syntheses.
28. Aryl Halides: Nucleophilic Aromatic Substitution.
29. a, b—Unsaturated Carbonyl Compounds: Conjugate Addition.
30. Molecular Orbitals.
31. Orbital Symmetry.
32. Symphoria: Neighboring Group Effects, Catalysis by Transition Metal Complexes.
33. Heterocyclic Compounds.
34. Macromolecules.
35. Polymers and Polymerization.
36. Stereochemistry III: Enantiotopic and Diastereotopic Ligands and Faces.
37. Lipids: Fats and Steroids.
38. Carbohydrates I: Monosaccharides.
39. Carbohydrates II: Disaccharides and Polysaccharides.
40. Proteins and Nucleic Acids: Molecular Biology.
41. Analysis of Spectra.

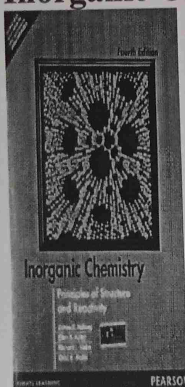

Salient Features

- The earlier chapters on fundamentals have been streamlined.
- Key topics such as nucleophilic substitution, elimination, addition, conjugation and stereoselectivity find an easy and effective introduction in the revised version.
- Alcohols and Ethers are now treated in Chapter 6 (immediately following nucleophilic substitution) which permits realistic use of oxygen compounds in the chemistry that follows.
- Removal of redundant and outdated material has made the study guide slimmer by 200 pages.

Organic Chemistry, 6/e

Author(s):
• Leroy G. Wade, Jr.
• Maya Shankar Singh

ISBN: 9788177587395

10 Digit ISBN:
8177587390

Price: Rs. 999.00

Pages: 1252

Imprint: Pearson
Education

Binding: Paperback

Status: Available

The book maintains the traditional organization that concentrates on one functional group at a time while comparing and contrasting the reactivity of different functional groups. Structural concepts such as stereochemistry and spectroscopy are thoroughly treated as useful techniques that enhance the fundamental study of chemical reactivity. Study aids such as first exposure icons, rules, summary tables, reaction summaries, and glossaries are provided to emphasize and review the most important topics.

Salient Features

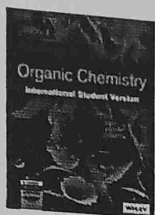

- Flexibility of coverage
- Up-to-date treatment
- Reaction mechanisms
- Introduction to mechanisms using free-radical halogenation
- Organic synthesis
- Spectroscopy
- IUPAC Nomenclature

Subjects

- Government Job Exams
- Entrance Test Prep
- Engineering
- Business
- Big Data
- IT Certifications
- Wiley Finance
- Mobile Programming / App Development
- Cloud Computing
- Computer Science
- Chemistry
- Physics / Astronomy

Organic Chemistry, 11ed, ISV

This book continues its tradition of excellence in teaching and preparing students for success in the organic classroom and beyond. A central theme of the authors's approach to organic chemistry is to emphasize the relationship between structure and reactivity. Learn More

This computer-based laboratory manual contains experiments in mechanics, thermodynamics, E&M and optics using hardware and software designed to enhance readers' understanding of calculus-based physics concepts. The manual makes use of an active learning **EXPLORER**™, including concept overviews, hypothesis-testing, prediction-making and investigations.

Solid State Physics: Structure and Properties

Author(s): M. A. Wahab

ISBN: 978-81-8487-493-8

Publication Year: 2015

Pages: 620

Binding: Paper Back

Price: Rs 495.00

SNO/14

About the book

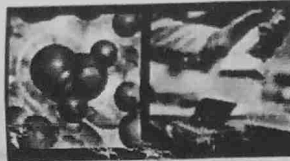

Solid State Physics, a comprehensive study for the undergraduate and postgraduate students is divided into eighteen chapters. The First seven chapters deal with structure related aspects such as diffusion of atoms followed by imperfections and lattice vibrations. Chapter eight deals mainly with materials. While the next nine chapters cover various physical properties of crystalline solids, the materials. This chapter has been added for benefit of readers to understand the crystal property formulations such as tensor and matrix.

Key Features

- Simple and Coherent Text • Solved Examples • Brief Summary and definitions of Key Properties of Materials

TABLE of Contents

Preface to Third Edition / Preface to the First Edition / Units of Measurements / Physical Constants

The Feynman Lectures on Physics: Volume II: The New Millennium Edition: Mainly Electromagnetism and Matter

Author(s):
• Richard P. Feynman
• Robert B. Leighton
• Matthew Sands
ISBN: 9788131792124
10 Digit ISBN: 8131792129
Price: Rs. 629.00
Pages: 592
Imprint: Pearson Education
Binding: Paperback
Status: Available

Timeless and collectible, The Feynman Lectures on Physics are essential reading, not just for students of Physics, but for anyone seeking an insightful introduction to the field from the inimitable Richard P. Feynman.

"When I look at The Feynman Lectures on Physics, I feel a very personal sense of closeness to them," said Feynman, looking back at the origins of these books. Bringing back Gauss's law and Maxwell's electrodynamics to waveguides, dielectrics, magnetic materials, and elasticity, the authors collected in Volume II of The Feynman Lectures on Physics stand as a monument to clear exposition and deep insight into Feynman's deep connection with the field.

 Publication Year: Reprint 2013
 Pages: 308
 Binding: Paper Back
 Price: Rs.370.00

About the book

The Fungi, provides a manageable amount of detail, appropriate for undergraduate and postgraduate students. It includes chapters on conservation, cultivation, preservation and major significance of fungal diversity in environment.

Key Features

- Chronology of chief mycological events
- Profusely illustrated diagrams
- Study quest glossary and references
- Organism/Taxa index

Plant Cell, Tissue and Organ Culture

Editors: O. L. Gamborg, G. C. Phillips

ISBN: 978-81-7219-101-5
 Publication Year: Reprint 2005
 Pages: 372
 Binding: Paper Back
 Price: Rs.335.00

About the book

This manual provides all relevant protocols for basic and applied plant cell culture and molecular cytology, virus diagnosis, gene transfer and PCR. Also included are chapters on laboratory facilities, the information needed to set up and carry out any of the procedures without having to use other and advanced students who wish to acquire practical skills and first-hand experience in plant biotechnology.

TABLE of Contents

Section I: Facilities and Technology Requirements for Laboratory Operations / Section II: Basic I Section III: Applications of Organ Culture Systems / Section IV: Protoplasts and Transformation Appendices / Subject Index.

CONTENTS

Part-I: Theory of Public Finance • Economic Activities

Modern Microeconomics (2nd Edition)

This book provides a thorough exposition of the traditional and the "modern" micro-theory. It concentrates on the traditional behaviour of the basic economic units, consumers and producers. The main emphasis is on "rational" behaviour, which is the essential structure of the modern industrial world. In addition, this second edition includes a chapter on the theory of factor pricing, general equilibrium theory and welfare theory. The book is written at an intermediate level, suitable for undergraduate, honours-theory courses. In addition, postgraduate courses in price theory could make use of the text. The author has adopted the verbal-argument method to illustrate the verbal exposition. Mathematical proofs (where necessary) are given in small print so as not to interrupt the main theme.

9780230394445 | PB | 606 pp | Macmillan | 2014 | ₹ 475.00

ECONOMICS OF DEVELOPMENT

This Thomson's bestselling Economics of Development (formerly Growth and Development) provides a comprehensive and well-organized introduction to development for students of economics. For the Ninth Edition, the content has been thoroughly revised and reorganized to reflect the evolving field.

Key features of the new edition include substantial new material covering: institutions and development—a new chapter on the economic impact of climate change on the poor; financial development and economic growth; growth accelerations, growth diagnostics and binding constraints; the impact of trade liberalization; recent research into global and international income distribution; the role of the state in the rural agricultural sector; brief biographical sketches of some famous growth economists.

Political Ideologies
An Introduction
5^{ed}

Andrew Heywood

About the Book: The fifth edition of this leading text on political ideologies provides a clear and accessible introduction to the political creeds and doctrines that have dominated and shaped world politics.

Ranging from traditional nineteenth-century ideologues such as liberalism, conservatism and socialism, to so-called 'new' ideologies such as feminism, ecologism, political Islam and multiculturalism, the author offers a clear exposition of the historical development of each ideology as well as the impact each has had on contemporary political movements, parties and governments. Their distinctive ideas and values are highlighted, together with the competing, and sometimes conflicting, traditions which they have generated.

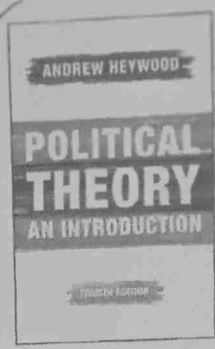

This new edition has been thoroughly revised and updated throughout, with extended coverage given to key current issues such as the impact on ideologies of globalization and related trends. Andrew Heywood's uniquely student-friendly writing style is now supported by a range of learning features in each chapter.

- Ideology Previews outline the nature of the ideologies and their central themes
- On-page definitions give quick-reference explanations of key terms
- Illustrated 'Key Figure' Profiles provide detail on important thinkers and their major ideas
- 'Key Concept' boxes explore and unpack important ideas
- Boxes on 'Perspectives' and 'Tensions' outline the differences within and between ideological traditions
- Questions help to apply and reinforce understanding

Contents: Introduction: Ideology and Ideologies, Liberalism, Conservatism, Socialism, Anarchism, Nationalism, Fascism, Feminism, Ecologism, Religious Fundamentalism, Multiculturalism, Conclusion: A Post-Ideological Age? Bibliography, Index

Political Theory
An Introduction

Andrew Heywood

NEW EDITION

About the Book: This is a fascinating and highly informative text clearly organized and written with wonderful clarity. Heywood combines only his undoubted expertise but also his enthusiasm for the subject. 400 pages, it represents excellent value for money" - Peter Dore, Politics

This fully revised and updated fourth edition of a highly successful field on how these have been used by different thinkers and thought. The book systematically builds understanding of both and contemporary theory by reviewing a wide range of major thinkers Aristotle, Rousseau, Marx and Mill to the present day. This edition increased coverage of the global dimensions of political thought a new chapter on international issues such as security and war - western approaches to political debates and controversies.

Contents: What is Political Theory? Human Nature, the Individual Society, Politics, Government and the State, Sovereignty, the Nation Transnationalism, Power, Authority and Legitimacy, Democracy Representation and the Public Interest, Law, Order and Justice Obligations and Citizenship, Freedom, Tolerance and Identity, Social Justice and Welfare, Property, the Market and Planning, Progress and Utopia, Bibliography, Index.

9781137603241 440 (Pb) 2016R £ 7.99 Palgrave

Key Concepts in Politics and International Relations

Global Politics 2/Ed

NEW EDITION

Andrew Heywood

Politics 4/Ed

NEW EDITION

Andrew Heywood

About the Book: The extensively revised new edition of Global Politics provides a systematic and integrated analysis of the theory and practice of contemporary international relations.

Written with outstanding clarity and drawing on an exceptionally wide range of theoretical perspectives throughout, each chapter is packed with innovative features to aid study and reinforce learning:

- Full-page case studies of Global Politics in Action look behind the headlines to illuminate major events in world affairs- most are entirely new to this edition to reflect the latest developments
- Global Actor case studies consider the nature and significance of key players on the world stage, from Google to the G-20
- Probe and Debating features look closer at issues and approaches to promote critical thinking
- Photographs and biographies of influential theorists introduce the people, as well as the ideas, that have shaped the subject.

This second edition is fully updated to cover key developments, from the Arab Spring to the global financial crisis, and provides enhanced coverage of issues like international migration. An entirely new chapter on theory at the end of the book details key perspectives, and addresses deeper questions about the nature and purpose of theory in international relations.

Contents: 1. Introducing Global Politics 2. Historical Context 3. Theories and Debates 4. The Economy in a Global Age 5. The State and Foreign Policy in a Global Age 6. Society in a Global Age 7. The Nation in a Global Age 8. Identity, Culture and Challenges to the West 9. Power and Twenty-First Century Issues 10. War and Peace 11. Nuclear Proliferation and Disarmament 12. Terrorism 13. Human Rights and Humanitarian Intervention 14. International Law 15. Poverty and Development 16. Global Environmental Issues 17. Gender in Global Politics 18. International Organization and the UN 19. Global Governance and the World Trade System 20. Regionalism and Global Politics 21. Why Theory Matters 22. Approaches to the Global Future.

9780230308357 518 (Pb) 2015R £ 8.99 Palgrave

✓ M

About the Book: 'A remarkable textbook - and even better in this enhanced and redesigned new edition! Balanced and authoritative, and very effectively supported with informative and insightful text boxes, Politics provides a wonderfully accessible and comprehensive introduction to the subject.' - Jonathon W. Moses, Norwegian University of Science and Technology, Trondheim, Norway.

'If you want to understand what politics can do, what it can't do and how it works I can think of no better starting point. This new edition more than ever succeeds in bringing the subject to life for those coming to the subject for the first time while offering fresh insights and perspectives for all.' - Gerry Stoker, University of Southampton, UK

'I am a huge fan! This is how the subject should be taught - with full coverage of politics and government but sensitive to theoretical issues, informed by history and broader economic and social trends, and encouraging engagement with the key debates of our times. This is a great place to start putting together what is needed to become a fully-rounded political scientist.' - David Coates, Wake Forest University, USA

Its lively, engaging style and authoritative and comprehensive coverage have made this highly successful text the first choice introduction to politics for students and instructors alike.

The fourth edition has been systematically revised and updated to cover key developments such as the global economic crisis and the 'Arab Spring'. The book also has a new, more integrated, chapter structure making it easier for students to see how different topics interrelate and taking better account of the increasing interdependence between domestic and world events.

With an attractive new full-colour page design, each chapter includes a range of innovative features and boxed information to aid learning and stimulate critical reflection:

- Full-page Politics in Action boxes examine major political events from around the world and reflect on their significance for political science.
- Debating boxes introduce the key controversies within politics and highlight arguments on both sides of a particular proposition.
- Illustrated Thinker profiles provide information about important figures and their ideas.
- Concept boxes offer a fuller discussion of important political terms and concepts, particularly those with complex or contested meanings.

Contents: What is Politics? Political Ideas and Ideologies, Politics and the State, Democracy and Legitimacy, Nations and Nationalism, Political Economy and Globalization, Politics, Society and Identity, Political Culture and the Media, Representation, Elections and Voting, Parties and Party Systems, Groups, Interests and Movements, Governments, Systems and Regimes, Political Executives and Leadership, Assemblies, Constitutions, Law and Judges, Public Policy and the Bureaucracy, Multilevel Politics, Security: Domestic and International, World Order and Global Governance, A Crisis in Politics? Bibliography, Index.
